SETTING UP ACCOUNT

1. Go to www.dfpcareerportal.org and click Register

The screenshot shows the top navigation bar of the DFP Career Portal. The logo on the left reads "DFP CAREER PORTAL" with a mountain icon. The navigation menu includes "Candidate Database", "Placement Opportunities", "FAQs", "Portal Guidance & Hiring Guidance", "Register", and "Sign In". A red arrow points to the "Register" link. Below the navigation bar is a large banner image of a woman and a child looking at a monarch butterfly. The banner text reads "Welcome to the DFP Career Portal" and "For Candidates and Hiring Managers, Please Sign In." with a "SIGN IN" button. Below the banner is a text box that reads: "Connecting candidates from the Directorate Fellows Program who have acquired Direct Hire Authority status to hiring managers at the U.S. Fish and Wildlife Service."

2. Fill out 'Candidate' fields

5. Add additional information under 'My Information'

NOTE: DO NOT upload a resume, transcripts, etc. or any personally identifiable information (PII) onto this platform!

The screenshot displays a user profile page for 'John Doe' under the 'DIRECTORATE RESOURCE ASSISTANTS FELLOWS PROGRAM'. The left sidebar contains navigation links: Dashboard, My Profile, My Information (highlighted), Applied Opportunities, Change Password, Logout, and Delete Profile. The main content area is titled 'My Information' and features four sections: EDUCATION, EXPERIENCE, LANGUAGES, and HONORS & AWARDS. Each section has a corresponding '+ ADD' button. Below these sections is an 'Update Profile' button.

Reminder: FWS will not activate a Fellow's portal page until:

- 1) **all fields are complete,**
- 2) **ALL (undergrad and graduate) final, official transcripts along with a current resume have been submitted to hr_dfp@fws.gov, and**
- 3) **a direct hire certificate has been issued.**

Candidate Description

Visual Text

B [List Icons] *I* U [List Icons] [Link Icon] [Image Icon] [Undo Icon] [Redo Icon]

My name is John Doe (he/him), and I am a first-generation college student from Shepherdstown, West Virginia. I am proud of my Appalachian roots and the values that come with it. I value hard work, dedication, and a sense of community, which are reflected in my interests and passions. I enjoy spending time hiking and exploring the outdoors, as well as volunteering with local non-profit organizations that support social and environmental causes. Additionally, I am interested in photography, creative writing, and have experience with graphic design and social media marketing. I am excited to bring my passion for community service, creativity, and strong work ethic to any potential employer in a role that aligns with my interests and skills.

My coursework in Environmental Studies and Communications at Shepherd University has equipped me with the comprehensive understanding of the environment and the skills necessary to effectively communicate complicated scientific concepts to diverse audiences.

I have experience volunteering with local non-profit organizations such as the Potomac Valley Audubon Society, where I worked as a field assistant on bird banding projects and helped to organize local birdwatching events. In addition, I have volunteered with the Chesapeake Bay Foundation, assisting with stream and river cleanups, and participating in educational programs that promote environmental stewardship and conservation. These experiences have not only allowed me to develop a deeper understanding of environmental issues but have also equipped me with valuable skills such as teamwork, communication, and project management. I am eager to continue to support environmental causes and bring my skills and experience to future opportunities with organizations that align with my values.

B   *I* U       

During my 11-week summer internship at the U.S Fish & Wildlife Service National Conservation Training Center, I gained valuable skills in science communication by working on success stories of alumni of the Directorate Fellowship Program. Specifically, my responsibilities were to:

- Conduct interviews with alumni of the Directorate Fellowship Program to create engaging and effective success stories for communication on various platforms.
- Develop and write content for communication materials such as newsletters, brochures, and articles about the Fellowship Program alumni's successes.
- Coordinate with the DFP team and provide support for program-related activities such as recruitment, onboarding, and mentorship for current and prospective fellows.
- Manage social media accounts and a content calendar to promote DFP initiatives and share success stories of the program alumni.
- Assist in the coordination and execution of events, including organizing speakers and guests and arranging logistics for outreach events.

My experience allowed me to hone in on my interpersonal and communication skills by conducting 20+ interviews, writing 10 articles, and editing content. This internship ignited my passion for science communication and has cemented my desire to pursue a career in this field upon graduation.
